OBJECTIVE

Motivated B.Tech Computer Science student (AI & Data Science) with a strong foundation in Python, Java, SQL and data analysis, and hands-on experience building projects across the software development life cycle (SDLC). Seeking a Technology internship to apply logical, analytical and problem-solving skills, communicate technical concepts clearly, and contribute effectively to a professional team.

EDUCATION

B.Tech in Computer Science and Engineering (AI & Data Science)
BVC Engineering College, Odalarevu (JNTU Kakinada) 2024 - 2028
Current CGPA: 8.53 | Expected graduation: 2028

Intermediate
Sri Chaitanya Junior College 2022 - 2024
Percentage: 87.8%

10th Standard
Mother Teresa Primary & High School 2022
Marks: 534

SKILLS

Programming Languages	Python, Java (Learning), SQL (Basic)
Web Technologies	HTML5, CSS3, JavaScript
Data Analysis	Data Analysis, Data Handling, Data Visualization, Forecasting
Software Engineering	Software Development Life Cycle (SDLC), Problem Solving, Debugging, Git/GitHub
Concepts	Artificial Intelligence & Data Science (Basic), Sensor-based Data Collection
Soft Skills	Logical & Analytical Thinking, Written & Spoken English, Technical Communication, Teamwork
Tools / Platforms	MS Office (Basic)

PROJECTS

EV Adoption Analysis – Global Intelligence Dashboard
Technologies Used: Python, Data Analysis, Web Visualization
- Analyzed 70 records across 10 countries (2018–2024) to track EV sales, market share, and CO_2 savings.
- Built an interactive dashboard visualizing 15M EV sales, 37.3% market share, and 87.4M tonnes CO_2 saved.
- Implemented forecasting to project EV adoption trends up to 2030.

StudySync – Student Productivity App
Technologies Used: HTML, CSS, JavaScript, LocalStorage
- Developed a frontend study app with dashboard, timetable, tasks, and Pomodoro/focus timers.
- Built gamification (coins, XP, levels, streaks) with LocalStorage data persistence.
- Designed animated progress bars and a distraction-free focus mode.

Employee Payroll Management System
- Developed a payroll system to automate salary calculation, deductions (PF, ESI, TDS), and payslips.
- Managed employee data (attendance, leave, salary) with accurate net pay calculation.
- Generated monthly payroll reports ensuring statutory compliance.

INTERNSHIP & EXPERIENCE

Full Stack Web Development Intern – Future Interns (Jul–Aug 2026)
Gained practical exposure to full-stack web technologies and the software development life cycle (SDLC).

Java Full Stack Course – Frontlines Edu Media (6 Months, Ongoing)
Learning Java and full-stack development concepts through a structured 6-month course.

Data Analysis Using Python – APSSDC (Jul 2026)
Completed practical training in data handling and analysis using Python.

Python with AI
Training in Python programming with Artificial Intelligence concepts.

CERTIFICATIONS

- GenAI Powered Data Analytics – Deloitte (Aug 2026)
- Data Analytics Job Simulation – Deloitte (Aug 2026)
- Data Visualisation: Effective Insights – Forage (Sep 2026)
